

~~CONFIDENTIAL~~

USE OF PRIVATE ATTORNEYS ON COVERT PROJECTS

25X1A

REVISION: Agency Notice  dated 8 August 1952

1. GENERAL

The General Counsel maintains a panel of private attorneys who are cleared for use in clandestine operations.

2. USE

Only members of the panel may be used for legal services in clandestine operations. "Legal service" means any action that a lawyer might reasonably be expected to take in a professional capacity. The use will be subject to the general supervision and direction of the General Counsel who will designate, or concur in the selection of, a member of the panel for the service required. While this does not preclude the employment of lawyers for other than legal services, the General Counsel will nonetheless supervise such use whenever the attorney is a panel member.
